Applicant's potential

Scientific potential

The scientific potential of the entity in the field of commercial and non-commercial clinical trials (e.g. indicate the number of persons along with the definition of academic degrees with experience in conducting clinical trials, the number of trials conducted with the division into commercial and non-commercial trials) verified on the basis of publicly available databases of clinical trials (e.g. clinicaltrials.gov, EudraCT), including a description of the most important clinical trials on a similar subject.

Text field, mandatory, max. 3,000 characters

The potential of the entity responsible for the implementation of the Project – in relation to its technical, financial and administrative capacity

Owning an institutional capacity

The Applicant has the resources to perform the tasks under the Project, i.e. appropriate technical and personnel resources necessary for the proper implementation of the requested Project.

Text field, mandatory, max. 1,700 characters

Financial potential

Financial potential (as a minimum, the financial capacity of the entity responsible for the implementation of the Project should be confirmed to demonstrate that, in addition to its other activities, it is able to guarantee liquidity in terms of adequate financing of the Project in order to ensure its proper implementation and continued operation). The description should also include the amount of current financial obligations.

Text field, mandatory, max. 1,700 characters

Administrative potential

Administrative potential (at least the Applicant's ability to implement projects financed from public funds or other funds should be confirmed by indicating which projects were implemented by the Applicant with the use of public funds. Please indicate whether the Applicant has implemented Standard Operating Procedures or has a specialised unit handling external projects, etc.).

Text field, mandatory, max. 1,700 characters

Declaration of eligibility of the tax on goods and services

3 selection options (1 out of 3 options must be selected, it is not possible to select more than 1 option):

1. In connection with the implementation of the Project entitled [title of the Project] financed by the Medical Research Agency, [name of the entity submitting the Declaration] represents that by implementing the above Project it has the legal possibility

to recover the cost of tax on goods and services, the amount of which has not been included in the Project budget and also undertakes to make available financial and accounting documentation and to provide authorised control bodies with information enabling verification of the eligibility of the tax on goods and services.

2. In connection with the implementation of the Project entitled [title of the Project] financed by the Medical Research Agency, [name of the entity submitting the Declaration] represents that by implementing the above Project, it has the legal possibility to recover a part of the cost of tax on goods and services, the amount of which has not been included in the Project budget and undertakes to return the part of the tax on goods and services reimbursed under the Project entitled [title of the Project], if within 5 years after the completion of the Project there are premises enabling the recovery of this tax [2] by [name of the entity submitting the Declaration] [3] within the time limit not longer than 90 days from the date of submission of the VAT declaration [4]. At the same time, [name of the entity submitting the Declaration] undertakes to inform the Medical Research Agency about a change in the VAT tax status during the Project implementation period and for 5 years after its completion, if this will affect the legal possibility of recovering the VAT settled under the Project. [Name of the entity submitting the Declaration] also undertakes to make available financial and accounting documentation and to provide authorised control bodies with information enabling verification of the eligibility of the tax on goods and services.
3. In connection with the implementation of the Project entitled [title of the Project] financed by the Medical Research Agency, [name of the entity submitting the Declaration] represents that by implementing the above Project it does not have the legal possibility to recover the cost of tax on goods and services, the amount of which has been included in the Project budget and undertakes to return the part of the tax on goods and services reimbursed under the Project entitled [title of the Project], if within 5 years after the completion of the Project there are premises enabling the recovery of this tax [2] by [name of the entity submitting the Declaration] [3] within the time limit not longer than 90 days from the date of submission of the VAT declaration [4]. At the same time, [name of the entity submitting the Declaration] undertakes to inform the Medical Research Agency about a change in the VAT tax status during the Project implementation period and for 5 years after its completion, if this will affect the legal possibility of recovering the VAT settled under the Project. [Name of the entity submitting the Declaration] also undertakes to make available financial and accounting documentation and to provide authorised control bodies with information enabling verification of the eligibility of the tax on goods and services.

Analysis of the research problem

Health problem

Please specify:

- Aetiology and pathogenesis of the disease entity
- Clinical picture, natural course, complications and prognosis
- Epidemiology and disease burden

Health problem

Text field, min. 1000, max. 15,000 characters, mandatory field

Description of the scientific value of the Project (please refer to the Regulations literally).

Description of the scientific value of the Project

Text field, mandatory, min. 1000, max. 5,000 characters

A detailed description of the issues assessed in the specific criteria is included in the Annexes to the Call Regulations – the Substantive Evaluation Sheet and the Panel Evaluation Sheet.

Description of the clinical trial according to the PICOS (population, intervention, comparison, outcome, study design) scheme:

P - population in which the intervention will be used

Please specify: a detailed description of the target population indicated in the Application, including the rationale for the selection of target population, sample size with justification (described in a manner that enables verification of the calculations presented in the Application), patient inclusion and exclusion criteria, and patient assessment scheme that includes the baseline examination and assessment during treatment with procedures that the subjects will undergo.

Text field, min. 1000, max. 30,000 characters, mandatory field

I –proposed intervention

Please specify: a description of the proposed intervention, the rationale for its selection, the time and method of administration of the proposed intervention, supportive treatment (if used) .

Text field, mandatory, min. 1000, max. 10,000 characters

C – proposed comparators (comparative technologies)

The following should be specified: a description of the comparator, the rationale for its selection, the time and method of administration of the comparator, or a justification in the absence of a comparator in the clinical trial.

Text field, mandatory, min. 1000, max. 5,000 characters

O – health effects

Please specify: endpoints including primary and secondary , with rationale for their selection and the adopted methodology for their assessment, clinical significance of the main endpoints with justification e.

Text field, mandatory, min. 1000, max. 5,000 characters

S – type of proposed Clinical trial)

Please specify: The type of proposed Clinical trial, along with a description (if applicable) of randomization and allocation of patients to groups, blinding (if applicable), concept for statistical analysis of data, and duration of the clinical trial (in months) and conditions of early termination of the trial .

Text field, mandatory, min. 1000, max. 5,000 characters

The number and names of the sites along with a description of their technical potential (the number of sites, including equipment and personnel resources necessary for the implementation of the Project) owned by individual sites. In the case of an international clinical trial, please indicate which country is the Leader.

Moreover, the Applicant should demonstrate that they are able to implement the Project to the optimum degree. Please describe the key scientific and research personnel (indicate the academic title, name, surname) necessary for the proper implementation of the Project, along with their competencies. The Applicant should demonstrate whether they currently has adequate human resources to conduct the study or plan to employ additional personnel.

Text field, mandatory, max. 5,000 characters

A detailed description of the issues assessed in the specific criteria is included in the Annexes to the Call Regulations – the Substantive Evaluation Sheet and the Panel Evaluation Sheet.

Bonus criteria specific to the Call

Text field, not mandatory, max. 5,000 characters

A detailed description of the issues assessed in the bonus criteria is included in the Annexes to the Call Regulations – the Substantive Evaluation Sheet and the Panel Evaluation Sheet.

Indicators
Number of validated innovative therapeutic methods developed within non-commercial clinical trial
Text field, mandatory, it is possible to enter an integer greater than 0 (at least 1).

Number of patients included in non-commercial clinical trial
Text field, mandatory, it is possible to enter an integer greater than 0 (at least 1).
Number of participants who received investigational medicinal product
Text field, mandatory, it is possible to enter an integer greater than 0 (at least 1).
Number of publications with the results of non-commercial clinical trial
Text field, mandatory, it is possible to enter an integer greater than 0 (at least 1).
Number of clinical trials launched in Poland in compliance with regulatory requirements
Text field, mandatory, it is only possible to enter an integer equal to 1.
Number of sites conducting non-commercial clinical trials under a given Project
Enter a value that represents the sum of all sites involved in the trial, including the sponsor.
Text field, mandatory, it is possible to enter an integer greater than 0 (at least 1).
Number of biobanked biological material samples²

² The total number (greater than 0) should be entered if the Applicant has planned to collect biological material. The data provided in the indicator should be consistent with the description provided in part II. B of the Application in the field "The Applicant's declaration (that in the case of biobanking, it will take place in a biobank operating in accordance

As an exception, it is permissible to indicate “zero” for the above indicator when the Applicant does not plan to collect any biological material, which is based on the assumptions of the Project.

Planned project activities and the method of their implementation

In this section, please include the project activities. The obligatory tasks are already defined:

- Obtaining a permit to conduct a clinical trial
- Obtaining medicinal product(s) for the clinical trial
- Clinical trial management
- Implementation of the clinical part

Up to 4 tasks can be added (a maximum of 8 tasks in total).

Each task should contain a defined, parameterised milestone. Reference should be made literally to the provisions in the Regulation. The milestones should be defined in such a way as to refer to the research issues undertaken at a given stage and allow for an objective assessment of the degree of achievement of the research objectives assumed at a given stage.

This module takes the form of a table that must be completed. It is necessary to add more items for each task separately.

The time limit related to the granting of the incentive bonus.

In the case of applying for the incentive bonus, it should be noted that the period from submitting the clinical trial documentation to the regulatory authorities until obtaining the approval of a clinical trial should not exceed 100 calendar days.
